NOW AVAILABLE

WORLD DIRECTORY: PRIMARY AND SECONDARY LEAD PLANTS 2024

This comprehensive 149-page ILZSG report, last published in 2023, provides fully updated and detailed listings of 498 primary and secondary lead smelters and refineries throughout all regions of the world covering 82 countries. The following information is given for each entry:

- Company address, telephone and fax numbers, e-mail and web addresses
- Smelter/refinery location(s)
- Year smelter/refinery was built
- Type of smelter/refinery process
- Annual capacities

Accurately tracking developments at lead plants is a complex process mainly owing to the number of secondary facilities operating across a large number of countries.

The ILZSG has over 40 years' experience of publishing this type of information and the ILZSG World Directory of Primary and Secondary Lead Plants is widely used as a reliable reference throughout the global lead industry.
